DETAILED ACTION

1. This office action is in response to amendment filed on 10/19/2006.
2. The objection to claim 27 has been withdrawn in view the Applicant's amendment to the claim.
3. Per Applicant's request, claims 28, 36 and 44 are cancelled.
4. Per Applicant's request, claims 27 and 42 have been amended.
5. Claims 27, 29-35, 37-43, and 45-49 are allowed.

Comments

6. The last page of the drawing is missing a label "Fig. 10". The Applicant is required to provide a replacement sheet for this page.

Reason For Allowance

7. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach the limitation "generating a second set of machine instructions from said first set of machine instructions having additional machine instructions that are memory monitoring instructions, said memory monitoring instructions checking a memory status of a memory location accessed by said memory access instruction in conjunction with execution of said memory access instruction, said memory status including an allocated state." as recited in independent claims 27, 34, and 42.

Art Unit: 2191

The closest cited prior arts, by Cline et al. (US Patent No. 5,313,616), teaches a method of inserting monitoring instructions to program code, however it does not teach the art of inserting monitoring instructions for checking memory status that include an allocated state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
